

### MSKMUN 2024: DAY 1

The latest updates

MSKMUN 2024 is finally here!

After months of preparation, the Executives, the Chairs, the GA, the Members of the Press and Staff, and most importantly, the hundreds of Delegates are ready to begin. Everything is set and the spotlight focuses on the heart of Kifissia, where the 1<sup>st</sup> Middle School is located.

It truly seems that these 4 days will be full of fruitful dialogue, interesting debates, plot twists in the procedure of each committee and, of course, many fun detentions.

(The Head of Press got a detention for the comment made above.)

Let's get right into the latest updates of Day 1.

Delegates waiting until the registration procedure is completed

Executive Anna Papacharisi says:

## The badges...WHERE ARE THEY?! (in a Batman voice)

If you have any information, please contact us

Our latest information support that the badges of some participants cannot be found and have, in fact, been lost.

As ironic as it may be, the executives and the staff ended up starting a debate of their own on what had happened. Some support they simply forgot where they placed them, others support that this is a conspiracy and a sabotage. Secretary General Iosif Iakovidis supports that the “dem haterz” are involved and we need to “act strategically”.

The search for the lost badges continues. Our Executive Team is on the case. The truth cannot be hidden. Justice will prevail! The Press Team will keep you informed at all times.

# Marvel and DC Superheroes < 5 Staff Members and 1 Executive

Latest update regarding our Staff and Press

Today was our Staff's time to shine. Everyone was a witness and held their breath when those unrecognized heroes carried desks and chairs all around the MSKMUN school area.

Executive Adamantia once again showed that she remains a woman of the people, by staying on the Staff's side in these difficult times.

No doubt there is a lot of glory awaiting them when these 4 days come to an end.

Meanwhile, our Press Team Members continue roaming around capturing those unique moments.

They keep on chasing "the perfect photo", whilst organizing the "image of the Conference as a whole".

If you see them going around the building, smile and pose. Good photos and videos is part of what makes a successful conference.

**NOTE FROM THE HEAD OF NEWSPAPER:**

"Don't forget to add comments in the gossip box. The moment we open them will be a highlight!"

Executive Adamantia and 5 Staff Members preparing for the next few days... or maybe not...

Committees in session

## Lobbying and merging

The first debates circling resolutions have begun

Part of day 1 was the "lobbying and merging" procedure, in which our delegates' target was to discuss in between themselves, make alliances and find common ground with others, in order to create resolutions that will be presented in front of their committees, throughout the next few days.

Their goal now is to use their skills in the debate procedure which will occur, whilst having in mind to defend their resolutions and succeed to convince their committees about the positive impact their merged resolutions have. The final step is simple: "Get the other delegates to vote in favor".

## Opening Ceremony

Let's officially begin!

Around 19:30-20:00, the opening ceremony video was shown all around the many committees. Later, everyone gathered in the large amphitheater, where our General Assembly President, our Secretary General and our Assistant Secretary General gave their speeches. The day came to an end with the GA President, Konstantinos Tigkas, declaring the conference "officially open".

Day 1 out of 4 is completed, looking more interesting than ever. It seems that Friday and Saturday (in which the debates are planned to continue) will be even more full of activities and fruitful dialogue.
